Getting support to take part

If you need support to take part, you could ask someone to help you.

If you don't have anyone who could help you, then a member of the review team might be able to come to meet you, to help you to take part.

Taking part in groups

If you're in a group, you can use our survey to talk in your group about what you think.

If you're part of a group, the review team might be able to visit you. If you would like this to happen, please contact us as soon as possible.

We would speak to you about how to make the group as accessible as possible for you. If you would need an interpreter to help you to take part in the group, we could organise this for you.

Sections

Our survey is in different sections. You can choose to do as many sections as you want.

Questions

After each section we will ask you what you think of our ideas. You can stop and save your survey at any time.

Click submit

When you finish a section, you need to click 'Submit' at the end. This is so we can see your answers.

Asking for your name

At the end of each section, we ask you for your name and a few details about you. This is so we can understand who has taken part in the survey. You do not have to give us this information, but it's very helpful to us if you do.

Keeping your information private

We will keep all of your information private. Our privacy statement is available on our website, or we can post it to you.

The review team are contacting lots of people and organisations that we know are interested in the review. If you can help us to spread the word, please do.
